

## Digimap® News

March 2014

### In this Newsletter:

[Legends now available for your Print Maps](#)  
[Flood research data added to Geology Digimap](#)  
[Northern Irish data for Environment Digimap](#)

### Legends now available for your Print Maps

Add a legend to your print out in the Roam mapping facilities.

EDINA has updated the print interface for its Roam mapping services. You can now add a legend to your map (not in Ancient Roam) and preview the layout, seeing the precise extent before you generate your print file.

### Flood research data added to Geology Digimap

New datasets from the British Geological Survey now available

EDINA has added the Geological Indicators of Flooding and Permeability Indices to Geology Download. These are important datasets when researching flooding. There are even more datasets coming to Geology Digimap soon too.

### Northern Irish data for Environment Digimap

LandCover data for Northern Ireland available to download

Thanks to an agreement between the Centre for Ecology and Hydrology and Jisc we are now offering 2000 and 2007 LandCover data for Northern Ireland as well as Great Britain.
