[New Downloader and Data for Marine Digimap](#)

Data Download Basket Improvements

Change the date and format of your data...

It is now much easier to make changes to the data you are ordering from Digimap. Instead of opening a pop-up to find out what you can alter, you can now simply select new options from drop down menus in the basket.

New Downloader and Data for Marine Digimap

All the data in one easy to use interface...

Marine Digimap now has a single interface for downloading data. This interface is much easier to use and contains the most recent versions of the SeaZone data available.
