

Your tasks:

1. Open Roam.
2. Go to **Drawing Tools > Import**.
3. Select **Choose File** and open the file **Carlisle_urban_flood_warn_EA.zip**.
4. Select **Import**.
5. **Basemap** – try a Vector Map District basemap.
6. **Map content** – in the Map Content menu, try and remove some map features to make your map clearer for example Roads, Railways.
7. **Add labels** – try and text labels to rivers and measurement labels to some of the flood warning areas.
8. **Save** – can you save your map within Digimap?
9. Can you create an **A4 PDF portrait print file**?
