

Digimap[®]

High-quality maps and data

Location is key to many projects and analyses. Enjoy exploring maps that can help to frame your research questions. Develop your geospatial skills with our simple-to-use tools.

You can view and print high-quality maps and download map data in Digimap Collections, with your institution's subscription to this valuable resource.

Visit digimap.edina.ac.uk. Login, register and activate the collections you're interested in!

Note: your institution may not subscribe to all collections.

About the maps

Ordnance Survey

current UK data at a wide range of scales

Historic

OS maps of Great Britain from 1840s to 1990s

Geology

British Geological Survey onshore and offshore maps, plus borehole and groundwater data

Marine

a rich vector dataset of marine features plus nautical charts of Great Britain's waters

Environment

UK land cover, crops, fertiliser and pesticide maps

Aerial

detailed aerial photography of Great Britain

Lidar

terrain and surface models, point cloud data and aerial photography

Global

view the world with frequently updated global datasets

Society

visualise more than 40 types of 2011 census data

Our applications

Roam

Browse, print and customise maps with text, symbols and shapes. Measure map features.

Data Download

Intuitive way to download mapping data for further analysis and customisation.

Web Map Service

View mapping images from Digimap Collections in GIS software.
