

 **Environment Digimap**

Centre for Ecology and Hydrology
map data:

- Land cover maps for 2015, 2007, 2000 and 1990.
- Crop maps for 2018, 2017 and 2016.

1930s Land Utilisation Survey maps.

View, annotate and print maps.

Download map data for use in GIS
and CAD applications.

Extensive online support and
guidance.

What is Environment Digimap?

Environment Digimap is an online service delivering high-quality digital map data from CEH. Our applications are intuitive, flexible and designed for use in an academic context.

Digimap consists of two applications, one for browsing and printing maps, the other for downloading digital map data:

- Use **Roam** to view, annotate and print maps.
- Use **Data Download** to download map data and load it into GIS or CAD software for further analysis and manipulation.

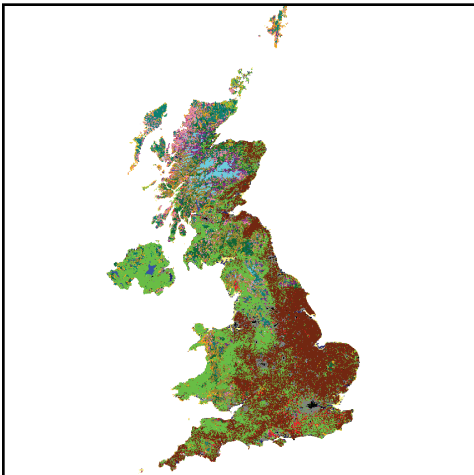

Map data

Land Cover maps

- 2015: 25m and 1km resolution, covering UK, in both raster and vector formats.
- 2007: 25m and 1km resolution, covering UK, in both raster and vector formats.
- 2000: 25m and 1km resolution, covering UK, in both raster and vector formats.
- 1990: 25m and 1km, covering Great Britain, in raster format.

Dudley Stamp's 1930s Land Utilisation Survey

- Colour historical land use mapping (only in Roam, not in Data Download) overprinted on Ordnance Survey topographic base maps at two scales (1:625,000 & 1:63,360) for England, Wales and Scotland.

Crops, Fertiliser and Pesticides

- CEH Land Cover© plus: Crops. The first detailed digital maps of cropping in Great Britain, available in two vector formats for 2016, 2017 and 2018.
- Fertiliser 2010-2015: map data of the predicted average annual application rates for nitrogen, phosphorus and potassium.
- Pesticides 2012-16: map data of the average annual pesticide applications.

User Support

Comprehensive help is available in Digimap applications. Regular webinars are available to all users. Each subscribing institution has local user support staff. Any user can contact the EDINA helpdesk at digimap@ed.ac.uk.

Access

Access is free to staff and students of subscribing institutions. For further information on subscriptions, available data, and using the service, go to: <https://digimap.edina.ac.uk/>
