	Elevation Breakdown 1km (based on EU-DEM)	۰ ۲ ۲ ۲ ۲
	Add Layers to Map	Cancel
	This is a Beta feature. Please send us an hink should work but don't, using the Co	y WMS URLs that you ntact Us facility.

## Your tasks:

- 1. Open Global Roam.
- 2. Change Basemap to World Panorama.
- 3. Now we add a Web Map Service of elevation, provided by the European Environment Agency. Check out all the possible WMS they offer.
- 4. Select Overlays from the sidebar.
- Select Add WMS Feed. Copy and paste this URL: <u>https://land.discomap.eea.europa.eu/arcgis/services/Elevation/Elevation\_Breakdown\_2012\_1k</u> <u>m/MapServer/WmsServer</u>
- 6. Select Get Layers.
- 7. Select Add Layers to Map.
- 8. Your map should be displaying elevation data over Europe, and your overlays menu will show the WMS details see image on next page.
- 9. Change the opacity of the elevation mapping by moving the slider bar left and right.
