Select map features and get feature information:

1. In Marine Roam, search for Gourock.

2. Pan north until your map resembles the map image.

3. Map Content: note that only a selection of the available marine features are displayed by default. Let's display some more:

   a. In Bathymetry and Land section, display Depth Sounding (detailed) and Depth Sounding Values (detailed).

   b. In Obstructions and Shipwrecks, display Wrecks names.

   c. In Transport features, display Ferry.

4. 🛈 Get feature info. – try and find out more about the Osprey wreck. Zoom in as far as you can and select the wreck symbol – see image on next page.

5. Legend: Can you identify the features circled in the image on the next page? Check the Map Content panel OR the map legend provided on the help page.
